ENROLLMENT REQUIREMENTS

The mission of THE MUTT HUTT is to provide a safe, fun and stimulating social environment for pets while in our care. To help ensure the safety and health of your pet and our other guests, we require all guests to comply with the following rules and regulations. We are no longer a drop-in boarding facility and do require dogs to attend daycare and stay familiar with the facility.

1. Please call The Mutt Hutt at 216-621-6888 to schedule your evaluation in advance. Allow up to two weeks' notice for your appointment.
2. Please bring the attached forms completely filled out on the day of your dog's evaluation along with vet records. This will save you time in the morning and will allow your dog to enter our facility right away.
3. We are a **cage-free facility** we require that all dogs over the age of 5 months come in for an evaluation. Please call to schedule the evaluation so that we can make sure that your Mutt fits in with the pack. The cost to evaluate your dog is \$20 and includes a full day of daycare.
4. **All dogs must be spayed or neutered** with the exception of puppies. Females in season will not be able to attend daycare. We reserve the right to suspend attendance for any puppy that is not spayed or neutered by six months of age. Please be aware some hormones related to unaltered puppies disrupt the pack. We strive on having a controlled, balanced, quiet pack.
5. All dogs must have up-to-date vaccinations. Bring proof of vaccinations from your vet or have the vet fax the vaccination records to 216-373-4902. Before your dog enters of facility you must provide proof from their vet that they have been vaccinated against: **Distemper/Parvo (DHLPP)**, **Rabies** (1 or 3 year), **Canine Influenza H3N2** (although we recommend the Canine Influenza vaccine that covers H3N2 and H3N8), and your dog must receive a 1-year **Bordetella Injection or the nasal version every 6 months**. If a dog has a medical reason for not having vaccines, they will have to be approved by the manager before coming to THE MUTT HUTT..
6. An effective flea/tick preventative is required during flea season (April-December). Flea collars are not acceptable. THE MUTT HUTT is not responsible if your pet contracts fleas. Heartworm preventative is required year round.
7. Owners must certify their pet is in good health and has not been ill with a communicable condition in the last 30 days. Upon admission, all pets must be free from any condition that could potentially jeopardize other guests. Pets that have been ill with a communicable condition the last 30 days will be required to provide veterinarian certification of health to be admitted or re-admitted.
8. All dogs must be non-aggressive with other dogs. Owners must certify that their pet has neither harmed nor shown any aggressive or threatening behavior towards any person or other animal.
9. **All dogs must be checked into the facility by 10 AM regardless of staying for the day or overnight**. This is to help balance the energy levels of the entire pack and preserve the safety of the dogs in our care. We ask that you respect our policies as safety is our number one concern.
10. We will not tolerate excessive barking; it is very disruptive to the playgroup. If your dog is barking excessively, we will isolate your dog to attempt to stop the barking. In the event your dog continues this behavior they may be asked to leave the facility.
11. Your dog must enter the play area naked. We will remove all leashes and collars as a safety precaution in the facility before entering the play area. If you choose for your dog to wear a collar there is a collar waiver. There are times when a correction collar may be used on your dog to correct behavior problems. Please ask about this if there is a concern.
12. For the safety and well-being of the dogs in daycare you must agree to not enter the play area during daycare hours or without permission from the facility manager on duty. Tours are scheduled by appointment only before/after daycare hours. Please read our policy on tours in this packet.

Please remember that your dog will be spending time with other pets and the safety of all animals is our main concern. We look forward to meeting you and your Mutt!

Do not have your dog without the control of a leash or harness in our lobby. We will bring your leashed dog to you at departure time. **All dogs must arrive by 10 AM regardless of daycare or overnight care.** For pick up we close Monday – Friday at 7 PM and Saturday at 6 PM.

COLLARS AND LEASHES: For safety reasons, collars will be removed when your dog enters the play area of the facility. All dogs must have a collar or harness with proper ID tag, rabies tag and we recommend registering with a Cuyahoga County dog license while enrolled at The Mutt Hutt Ltd. If we are walking your dog outside of our facility or transporting your dog anywhere outside of our facility, we will make every effort to use the leash and collar you provide us with. There are times when a correction collar may be used on your dog to correct behavior problems. Please ask about this if there is a concern. Should you chose to have your dog in their own collar we require a signed waiver before admittance.

PAYMENT: Payment in full is required in advance and always before your pet leaves our facility. We accept checks, Visa, MasterCard, Discover, American Express and, of course, cash. Be aware if you leave a debit card on file it will be charged and we will not be responsible for overdraft fees. We prefer to swipe your card upon departure, however we can keep your credit card on file and can either apply charges to your credit card as they are incurred or keep a tally of charges incurred and you can pay with another means when you pick your pet up. We will only use your credit card for the emergency purposes or for non-payment.

UNACCEPTABLE ANIMALS: The Mutt Hutt Ltd. reserves in its sole discretion the right to refuse to accept, or to reject upon acceptance, any dog who we believe would not safely integrate with the rest of the animals, or who we believe does not have an appropriate temperament to integrate into our environment. This includes, but is not limited to, aggressive, anti-social, overly active, overly anxious or physically ill dogs.

BARKING: We will not tolerate excessive barking; it is very disruptive to the playgroup. If your dog is barking excessively, we will isolate your dog to attempt to stop the barking. In the event your dog continues this behavior they may be asked to leave the facility or we can discuss with you other options to help solve the problem.

VACCINATIONS: All dogs are required to be fully vaccinated including distemper/parvo, rabies, canine influenza H3N2* and bordetella injection and provide proof thereof. We require a printout from your vet, which you can either bring in to us or have the vet fax directly to us. Please provide us with annual updates of your pet's vaccination records. It is your responsibility to make sure that your pet continues to be fully vaccinated while visiting The Mutt Hutt Ltd. We reserve the right to remove your dog from the facility if they are not fully vaccinated. *We recommend the Canine Influenza vaccine that covers H3N2 and H3N8.

FLEA & HEARTWORM PREVENTATIVE: All dogs must be wearing flea protection (suggested from April-December), in the form of a topical liquid. Flea collars are NOT acceptable. Your dog may be inspected for fleas when he/she comes in. If your dog is found to have fleas, they will be refused service until proper flea protection is given and an inspection shows no fleas. If your dog contracts fleas while at The Mutt Hutt Ltd., The Mutt Hutt Ltd. is not responsible because proper flea protection is your responsibility. All dogs must take year-round heartworm preventative and proof of purchase is required.

VETERINARY CARE: The Mutt Hutt Ltd. will use our best efforts if your pet becomes ill or injured. We will contact you and/or your vet immediately. If that is not possible, and we deem it necessary, we will seek immediate medical attention for your pet, at your sole expense, from the most readily available certified veterinarian. By signing our Authorization Waiver, you authorize The Mutt Hutt Ltd. and its representatives to act "as owner", at your sole expense, in the case of medical necessity. We encourage you to make payment arrangements with Gateway Animal Clinic in advance. If payment arrangements have not been made and The Mutt Hutt Ltd. incurs the costs it will be your responsibility to immediately pay for any charges incurred by The Mutt Hutt Ltd.

SPAY & NEUTER POLICY: With the exception of puppies, The Mutt Hutt Ltd. does NOT accept dogs that are not spayed or neutered. Should your dog inadvertently becomes impregnated, The Mutt Hutt Ltd. shall not be liable for any resultant litter, illness or medical expenses, or otherwise. Please help the pet population and spay or neuter your pet.

FACILITY RULES & POLICIES

TOURS OF THE MUTT HUTT FACILITY

We realize that it's important for you to see where your dog is spending its day. We pride ourselves in having a controlled and quiet pack of dogs at all times. Having "strangers" (you) walk through our doors can upset the dogs and can erupt into a doggy dispute. Therefore we do not allow clients to walk onto our playroom floor. We do offer a sneak peak through our lobby window that will reveal the playroom floor. We provide lots of photographs on our website, the back yard is made up of shade trees and smooth pea gravel and we have a 12'x4' pool and plenty of play equipment and dog houses. We are more than happy to show you pictures or video upon request.

DAYCARE RESERVATION POLICY

To insure your dog has a safe and enjoyable experience, we have limited the number of dogs we allow for daycare and overnights. **All reservations are required in advance.** We ask that you make a daycare reservation as far in advance possible to insure we have space for your dog when you need it. Space is on a first-come, first-serve basis. The purchase of a daycare pass does not guarantee a space for your dog as a walk-in. Reservations always are strongly encouraged and recommended! We reserve the right to not admit your dog should space not be available. In the event your plans change, please call us to cancel your reservation so another dog can be admitted in your dog's place.

Grooming Salon Release and Hold Harmless Agreement

Your animal is very important to The Mutt Hutt's professional animal groomers. The Mutt Hutt Ltd. and any person employed by The Mutt Hutt Ltd. will be known from here on as TMH in the rest of the contents of this document. TMH would like to assure you that every effort will be made to make your animal's grooming experience as safe and pleasant as possible for all involved. Safety comes first for everyone, people as well as the animals, during the grooming process. Grooming services are performed at both 2603 Scranton Road and 2626 Scranton Road in Cleveland, Ohio.

Health or Medical Problems

Occasionally, grooming can expose a hidden medical problem or aggravate a current one. This can occur during or after grooming. In the best interest of your animal this contract/agreement will give TMH permission to obtain immediate veterinary treatment for your animal should it become necessary. If veterinary care is needed, TMH will take your animal to your authorized veterinarian or to the nearest veterinarian available (Gateway Animal Clinic). All medical expenses for veterinary care will be covered by the animal's owner upon signing this contract/agreement.

Accidents

Accidents can and do occur. These include cuts, scratches, scrapes, quicking of nails, clipper burns, brush burns, etc. In most cases this happens when the animal is wiggling or moving around. Every effort will be made to ensure that your animal is groomed as safely as possible. Your animal is very important to TMH, and TMH does not wish to cause any harm or undue stress to your animal. In the event an accident does occur, you will be notified of the accident. If TMH feels it is serious, TMH will seek immediate veterinary care for your animal. Veterinary costs will be the responsibility of the animal's owner.

Veterinarian Authorization-Medical Emergencies

This release gives TMH full authorization to seek medical treatment from authorized veterinarians or nearest veterinarian in the case of any medical emergencies while in the care of LWFPAG. **All veterinarian costs and expenses will be the responsibility of the animal's owner.**

Current Vaccinations

Animals will be current on all of their vaccinations before a grooming session with TMH. Animals who are not current on vaccinations will be refused grooming services until vaccinations are current. Proof of vaccinations from your veterinarian will be required before grooming services will be given. Special circumstances will be taken into consideration by TMH.

First Grooming-Puppy Grooming

TMH wants to make sure your animal's first grooming appointment with TMH and your younger animal's first grooming experience is a positive and pleasant one. The first time for grooming of any animal may sometimes be very scary and stressful. Time and patience are the keys to a positive grooming experience. A good first grooming experience for the younger animal leads to a better overall grooming experience for your pet in the future. More time may be necessary to work with the younger animals. Animals are individuals; some animals may become more stressed than others. If your animal becomes stressed over its first grooming, time and patience, with a little homework on your part should help build your younger animal's confidence, and assure the animal that grooming is a positive experience. On occasion, some animals due to breed, genetics, health concerns, etc. may be stressed by grooming for their entire life, but this is rare. If this should occur, extra care will be taken and only the very basics will be done for grooming of this type of personality. In some cases an animal may never come to accept some or all of the grooming experience.

Senior Animals

Senior animals and animals with serious illness or medical conditions have a greater chance of injury or death during their grooming experience. Every effort will be made to make sure your senior or ill animal's grooming experience is as safe and as comfortable as possible. Extra time may be needed for the ill or senior animal to allow the animal to be as comfortable as possible.

Muzzling may also be required during your ill or senior animal's grooming experience, since ill or senior animals have lower tolerance levels. Muzzling is only done when necessary to ensure the safety of both animal and the groomer. TMH has the right to stop/refuse service to ill or senior animal if it is felt that grooming will cause undue stress or be harmful to the animal. TMH will not be held responsible for the death of any animal during grooming or while in the care of TMH.

Matted Animals

Animals with matted coats need extra attention during their grooming experience. Mats can sometimes be very difficult to remove, requiring them to be shaved out of the coat. TMH does not wish to cause serious or undue stress to your animal.

In cases where the coat is severely matted, TMH recommends that portions of the coat, or in some cases, the entire coat be shaved down. The decision is made upon examination of your animal's coat condition at the time of grooming. In some cases the decision may be made during the grooming process if TMH feels it necessary for the pet's health and to maintain as much comfort as possible for your animal's well being during grooming. TMH refuses to do any service which will harm or cause undue stress to your animal.

TMH will advise you in the event that it is necessary to shave part or your animal's entire coat due to matting. If you cannot be contacted, TMH will make every effort to take into consideration of your animal's health and level of stress pertaining the condition of the coat. Most severely matted coats will be shaved down to alleviate stress to your animal.

Skin Conditions Under Matted Coats

The skin under a matted coat can become or will be very irritated and sensitive. A severely tangled or matted coat that has not been properly groomed is a dangerous risk to the health of your animal. Under the matted coat your animal's skin is usually red, swollen, cracked, and dangerous to groom. There are higher chances of nicking or cutting the skin during de-matting. Clipping the matted coat away from the skin may cause the animal's skin to become very irritated, crack, and bleed. A severely matted or tangled coat does not allow air to get through to the skin causing irritation to the skin in the areas where the matting has occurred.

Irritation can also occur after the matted coat has been shaved away from the skin. Many animals may react to having their matted coats shaved away from the skin by licking, chewing, or scratching these areas. This can cause more irritation as well as problems with skin infections.

Parasites may also be harboring in your animal's coat due to situations where your animal's coat is matted. A topical or oral flea treatment may be required before grooming services are given. Special shampoo may be used to alleviate the problems of parasites. Treatment of your home is suggested to remove parasites from the animal's environment. While bathing and grooming will remove parasites from your animal, they will again become infested with these parasites when

they are returned to their home environment if their home environment hasn't been treated to remove the parasites.

Parasites

TMH requires flea/tick treatment from April – November to enter the facility. In the event of finding parasites such as, fleas, ticks and lice TMH reserves the right to refuse service to your animal. TMH suggests that you treat your animal with one of the many products that are out on the market. Note: Flea infestations usually lead to your animal acquiring tapeworms-an intestinal parasite. Tapeworms can be transmitted from animals to humans. TMH will notify you if there is a need for veterinary care concerning your animal if TMH does find anything that looks like it may need the assistance from a veterinarian. TMH will also notify you if TMH feels that parasite treatment is necessary.

Neglect or Abuse

In the event that severe neglect or abuse is questionable or present, this agreement will authorized TMH to transport the animal in question to a local veterinarian to seek a full medical evaluation of said animal at the owner's expense. TMH has the right to contact the local Animal Protective League, seek full veterinary care for said animal, and file for prosecution under the full extent of the laws of the county/state codes. The animal in question will be placed in protective custody pending evaluations from a local veterinarian. The animal will remain in protective custody pending any hearings, or legal action taken on behalf of TMH or the Animal Protective League or the like. Animals in protective custody will be held until decisions are finalized by TMH, the Animal Protective League, and/or legal judgment ruled.

If owner is found guilty of abuse/negligence, the animal will be placed in a responsible, loving home. **The owner of said animal in question will be held responsible for all veterinary, boarding/kennel, and legal costs incurred by this process.**

Refusal of Grooming Services

TMH has the right to refuse any services at any time. In the event that your animal is too stressed or becomes dangerous to groom, TMH has the right to refuse grooming services, stop grooming services, or cancel grooming services at any time before or during the grooming process. Some animals may need the services of a groomer who is working within a veterinarian's clinic/hospital so that the animal may be properly sedated for grooming. **TMH does not groom animals under sedation.**

Dangerous or Aggressive Animals-Refusal of Services

TMH has the right to refuse any services at any time. In the event that your animal is too stressed or becomes dangerous to groom, TMH has the right to refuse grooming services, stop grooming services, or cancel grooming services at any time before, during, or after grooming.

Failure to disclose that your animal is a biter, known biter, or is dangerous will result in a fee of \$500. Said animal's owner will be responsible for all payments of any or all of the medical expenses, emergency medical treatments, hospital costs, and recovery costs including physical therapy incurred by TMH or any person employed by TMH for any harm or damage caused by your animal should medical treatment be necessary.

Animals who are known biters or are dangerous must be handled differently than those who are not aggressive. Some animals may need the services of a groomer who is working within a veterinarian's clinic/hospital so that the animal may be properly sedated for grooming.

Animal Bite

One bite can end a promising career for any professional animal groomer. This release is designed to protect all involved. In the event of TMH or any person employed by TMH being bitten by your animal, you as the animal's owner, caretaker, or responsible party for such animal, will take full responsibility for all payments of any or all of the medical expenses, emergency medical treatments, hospital costs, and recovery costs including physical therapy incurred by TMH and any person employed by TMH should medical treatment be necessary.

Use of Muzzles

TMH will advise if muzzling is necessary. Muzzling does not harm your animal and protects both the animal and the groomer. In some cases, muzzling may even calm a stressed animal, allowing the grooming process to continue. If an animal still acts in a way that is dangerous, TMH has the right to stop grooming services at any time.

Animal Owner or Caretaker Being Present During the Grooming Process

Due to insurance purposes, TMH requires that no unauthorized individuals be inside the grooming area at the time of grooming services unless requested by TMH to help calm or restrained animal during grooming services. During grooming services at TMH or for in-home services, some animals may become agitated or aggressive during their grooming experience if their owner or caretaker is present. TMH needs to be able to be in control of your animal during its grooming experience.

The equipment used during the grooming process is sharp and can cut very easily. TMH has the best interests of your animal's safety in mind. Controlling your animal is the best way of making sure both the animal and groomer do not get hurt. The professional animal groomer must be able to be in control of your animal at all times to ensure the safety of your animal as well as the professional animal groomer's safety.

In the event that you're animal becomes overly excited or stressed while you, the owner or caretaker are present, TMH will ask that you, the owner or caretaker, or any other person or family member present, leave the area where the grooming is taking place. Some animals become too excited while their owners or family members are present. In such cases, accidents are prone to happen when your animal is overly active during the grooming experience. Sharp equipment and moving animals just do not go well together and can lead to accidents happening.

Interruptions during Grooming Services

For the safety of the animals being groomed, as well as the professional animal groomer, it is asked that you do not interrupt the professional animal groomer during grooming. Interruptions may cause the animal being groomed to jump or move in a way that can cause an accident. The equipment used during grooming is very sharp and can cut easily. Every effort will be made to ensure the safety of your animal during the grooming process.
