Since 2005 the mission at The Mutt Hutt is to provide a safe, fun and stimulating social environment for your dogs while they are in our care. We offer cage-free daycare, staff supervised overnight stays as well as full service grooming at our storefront located across the street from our daycare and overnight facility. To help ensure the safety and health of your pet and our other guests, we require all guests to comply with the rules and regulations outlined here and on our website. If you have any questions about our policies or services please call or email us at tmh@themutthutt.com and we’d be happy to answer your questions.

We pride ourselves on knowing your dog’s personality, energy level, behavior traits and their limitations if they have any. We want you and your dogs to know us so be sure to introduce yourself to our many staff members as you meet them. We require all dogs to utilize our daycare or overnight services at least once every six months and in some cases may require attendance more often depending on your dog’s personality and behavior traits. We believe in doing what is right for each dog who walks through our doors and are providing each client with individual feedback about their dog’s experience and stay while in our care. In some cases you may never hear from us and in those cases we like to say “no news is good news” and other times we may find ourselves providing consultations to insure your dog is having a good experience.

Our primary focus is on daycare socialization while additionally offering our clients dogs a safe and enjoyable place for dogs to stay overnight. We are the only facility in Cleveland to offer cage-free overnights with 24/7 supervision. Yes, our staff stays in the building with your dog throughout the day and night so they are never alone! The demand for overnight care is high and therefore we are unable to offer clients the occasional “drop-in” overnight stay to clients who’s dogs may not attend daycare and stay familiar with the facility.

Now that you are ready to enroll your dog at The Mutt Hutt please familiarize yourself with the enrollment process to insure your dog is eligible and ready to enroll before calling to make an appointment:

★ All dogs must be over the age of 5 months come in for an evaluation.
★ All dogs must be spayed or neutered with the exception of puppies. Females in season will not be able to attend daycare. We reserve the right to suspend attendance for any puppy that is not spayed or neutered by six months of age. Please be aware some hormones related to unaltered puppies disrupt the pack. We strive on having a controlled, balanced, quiet pack.
★ Before your dog enters facility you must provide proof from your veterinarian they have been vaccinated against: Distemper/Parvo (DHPP), Rabies (1 or 3 year), Bordetella (injection or nasal) and the Canine Influenza H3N2. We recommend the dual strain Bivalent H3N2/H3N8 canine influenza vaccine. If a dog has a medical reason for not having vaccines your veterinarian may be consulted and enrollment will be approved by management prior to confirming your evaluation appointment.
★ An effective flea/tick preventative is required during flea season (suggested April-November). Flea collars are not acceptable with the exception of Seresto brand.
★ An effective monthly Heartworm preventative is strongly suggested required year round.
★ Owners must certify their pet is in good health and has not been ill with a communicable condition in the last 30 days. Upon admission, all pets must be free from any condition that could potentially jeopardize other dogs. Pets that have been ill with a communicable condition the last 30 days will be required to provide veterinarian certification of health to be admitted or readmitted.
★ All dogs must be non-aggressive with other dogs or humans. Owners must certify that their pet has neither harmed nor shown any aggressive or threatening behavior towards any person or other animal.
★ We will not tolerate excessive barking; it is very disruptive to the playgroup. Read more about our barking policy in the general rules.
★ For safety among the pack your dog’s collars will be removed and stored before entering the play area. If you choose for your dog to wear a collar we may ask you to sign an additional waiver. We may find it necessary to use a martingale or slip lead style collar to communicate with or identify your dog in the pack. Other than your own provided collars or our martingale or slip lead style collar or leash including correction such as prong collars are NEVER used without advance permission from the client.
★ All dogs must be checked into the facility by 10 AM regardless of staying for the day or overnight. This is to help balance the energy levels of the entire pack and preserve the safety of the dogs in our care. We ask that you respect our policies as safety is our number one concern.

Ready to enroll? Here are the next steps:

★ Be sure to call your veterinarian to make sure your dog is up to date on the required vaccines as we would not want to send you and your dog home on the first day. Bring proof of vaccinations or ask your veterinary clinic to fax the vaccination records to 216-208-4021 or email them to tmh@themutthutt.com.
★ The cost to evaluate your dog is $25. If you have a second dog enrolling on the same day the rate is $45 for both dogs.
★ Enrollment includes up to a full day (up to 12 hours) of daycare with a consultation at the end of your dogs first visit with one of our senior team members who will provide an honest assessment and suggestions to set your dog up for success at The Mutt Hutt.
★ Please call 216-621-6888 to schedule your dog’s evaluation appointment. Evaluations are conducted Monday through Thursday with a one time only set check in and check out time. Be advised it may take up to two weeks’ for your dogs initial evaluation appointment depending on the time of year or season your scheduling for.
★ Now that you’ve set your dog’s evaluation appointment date download, print and completely fill out the enrollment forms.
★ Bring the completed forms along with your dog’s veterinary records unless you’ve verified with us in advance we have received them.
You've got an evaluation date set…..what should you expect?

★ There is limited parking in front of our building however we share the same lot with our adjacent commercial neighbors to the south. If the four parking spots are full you are welcome to park next door, on the street or use the employee parking lot located across from our main building during check in and check out times only.

★ If our parking lot is busy that means our lobby is busy. Our lobby is quaint and we would prefer on for your first visit to enter our building when there is less activity. Even if your dog is super social on a leash other clients dogs may not be. May we suggest staying in your car or taking your dog for a quick walk to wait until the parking lot clears out. This will allow for your dog to enter the facility without being distracted or meeting other dogs inappropriately on their first day.

★ You know your dog best so we ask you to pay close attention to their behavior. Some dogs are naturally excited visiting new and unfamiliar places and others are hesitant and timid. Please be sure your dog's collar or harness is on properly when exiting your vehicle and entering our building. We ask that you do not use a retractable leash or have your dog meet other dogs in our parking lot or lobby.

★ When you arrive bring yourself and your dog inside to meet some of our team members and let them know you’ve got an evaluation appointment. As a safety measure we may find it necessary to take your dogs and secure he or she to a holding space beyond the lobby walls while we review your paperwork. Once your paperwork is checked and any questions you may have are satisfied it’s our turn to make evaluate and make sure your dog has a good experience.

★ For just this first appointment we have set a check in and check out time and ask that you arrive for your appointment at the end of the day to meet with one of our senior staff members who will fill you in on how the evaluation went. If you are running late please call to let us know as we tend to have other consultations with clients picking up dogs and we want to make sure to have five to ten minutes with you before your dog goes home.

★ Based on your dogs first day we will give you our honest assessment and make suggestions for your dogs future visits to insure that they are set up for success. Typically we will follow up with new clients for the first three visits and after that will only follow up as needed or when asked. You can assume your dog is having a good time as if no news is good news!

★ Once your dogs is evaluated and a fit for The Mutt Hutt you are welcome to start making reservations for daycare. Not all dogs are ready right away for an overnight stay so please discuss this with one of our staff members in advance of booking an overnight stay.

★ If your schedule is consistent we offer “standing reservations” which allow us to pre-book your dogs daycare visits in advance for up to six months at a time. No need to ever call to book when you’ve booked a standing reservation in advance. We do ask that you call to cancel anytime you plan to skip a day or if you need to swap a day for another one. For more information ask our front desk team.

★ We will send you home from your dogs first appointment with a small packet of information to take home and read.

Some fun facts about The Mutt Hutt you should know……

★ Our staff is experienced and trained for animal behavior. We manage personalities in the pack and not numbers of the pack. We take a lot of pride knowing each dog individually so that we can insure when you make a reservation for your dog to play or stay they have dog friends and the right energy for their own play style.

★ During the week we have a staff of three team members working with the dogs and two to four administrative and support team members in the building to help out if needed. During the weekends we staff accordingly to the needs of the pack and limit the administrative hours.

★ The interior playroom space is approximately 2500 square feet with concrete floors and overhead radiant heaters.

★ The outside yard is approximately 7500 square feet with smooth pea gravel, trees for shade, dog houses and seasonal play equipment including sprinklers, a large pool and smaller wading pools.

★ Although we are cage-free for safety we of course have a few kennels set up. The kennels are used to provide dogs breaks as needed or as they see fit (some dogs are great about self regulating and taking their own breaks). Overnight guests staying for longer stays tend to enjoy having private den space the kennels offer. We of course will do what is best for each dog and always encourage them freedom first.

★ We use Kuranda cot style beds to keep your dogs comfortable year round. We have our own blankets and sheets so there is no need to ever bring your own.

★ Savings is important to just about everyone so we offer packages for daycare and overnight stays. Inquire with one of our front desk team members about how you can buy in advance and save money for your dogs visits at The Mutt Hutt.

★ In addition to the many accolades, client referrals and online reviews The Mutt Hutt has been awarded "Best Pet Daycare by Cleveland Magazine, we received an Angies List Super Service Award, Cleveland Magazine readers picked The Mutt Hutt as “Best Pet Daycare” and COSE (Council of Small Enterprise) awarded us with one of the 2010 COSE 10 Under 10 winners. We were touched to be recognized by Ohio Citizen Action as the Grassroots Champion Award recipient at their 35th Anniversary celebration.

★ Secondhand Mutts, a local nonprofit dog rescue founded in 2007, has found homes for nearly 100 dogs a year most of whom are socialized at The Mutt Hutt and cared for by care of dozens of volunteer, foster providers and our staff.

★ We are very active with posting pictures and video on Instagram (@themutthutt) and the photographs are streamed to our website homepage. You are always welcome to ask our staff to take your dogs picture and we’ll do our best to accommodate your request.

Please be sure to review the rest of this enrollment packet including reading in its entirety our general rules and policies, facility policies, the grooming release and the authorization release and waiver of liability. Please remember all dogs must check in by 10 AM regardless of their visit being for daycare or an overnight stay.

On behalf of my entire team we look forward to meeting you and your dog and we hope to have a lifetime relationship caring for your dog.

We may find it necessary to use a martingale or slip lead style collar when transporting your dog outside of our facility. Equipment other than your own provided collars or our martingale or slip lead style collar or leash including correction such as prong collars are NEVER used without advance permission from the client. Should you chose to have your dog the collars you provide we require a signed waiver before admittance.

This includes, but is not limited to, aggressive, antisocial, overly active, overly anxious or physically ill dogs. We will always put what is best for your dog ahead of business. We will not tolerate excessive barking; it is very disruptive to the playgroup. If your dog is barking excessively, we will isolate your dog to attempt to stop the barking. In the event your dog continues this behavior we will consult you to discuss options to help solve the problem. If the problem persists we may find it necessary to suspend your dog from attending.

VACCINATIONS: All dogs are required to be fully vaccinated including distemper/parvo, rabies, canine influenza H3N2* and bordetella injection and provide proof thereof. We require a printout from your vet, which you can either bring in to us or have the vet fax directly to us. Please provide us with annual updates of your pet’s vaccination records. Seresto brand flea collars are the only flea collars acceptable for a collar preventative Your dog may be inspected for fleas at our discretion. If your dog is found to have fleas we will quarantine your dog and require your dog be picked up from our facility immediately. We may also refuse service until proper flea protection is given and an inspection shows no fleas. If your dog contracts fleas while at The Mutt Hutt Ltd., The Mutt Hutt Ltd. is not responsible because proper flea protection is your responsibility. Although it is not a requirement we suggest dogs take a year-round heartworm preventative.

VETERINARY CARE: The Mutt Hutt Ltd. will use our best efforts if your pet becomes ill or injured. We will contact you and/or your vet immediately. If that is not possible, and we deem it necessary, we will seek immediate medical attention for your pet, at your sole expense, from the most readily available certified veterinarian. The purchase of a daycare pass does not guarantee a space for your dog as a walk-in. Reservations always are strongly encouraged and recommended! We reserve the right to not admit your dog should space not be available. In the event your plans change, please call us to cancel your reservation so another dog can be admitted in your dog’s place. Grooming Salon Release and Hold Harmless Agreement

Your animal is very important to The Mutt Hutt's professional animal groomers. The Mutt Hutt Ltd. and any person employed by The Mutt Hutt Ltd. will be known from here on as TMH in the rest of the contents of this document. TMH would like to assure you that every effort will be made to make your animal's grooming experience as safe and pleasant as possible for all involved. Safety comes first for everyone, people as well as the animals, during the grooming process. Grooming services are performed at both 2603 Scranton Road and 2626 Scranton Road in Cleveland, Ohio. Clients are required to sign and date this agreement to be kept on file by TMH.

Health or Medical Problems: Occasionally, grooming can expose a hidden medical problem or aggravate a current one. This can occur during or after grooming. In the best interest of your animal this contract/agreement will give TMH permission to obtain immediate veterinary treatment for your animal should it become necessary. If veterinary care is needed, TMH will take your animal to your authorized veterinarian or to the nearest veterinarian available (Gateway Animal Clinic). All medical expenses for veterinary care will be covered by the animal's owner upon signing this contract/agreement.

Accidents: Accidents can and do occur. These include cuts, scratches, scrapes, quicking of nails, clipper burns, brush burns, etc. In most cases this happens when the animal is wiggling or moving around. Every effort will be made to ensure that your animal is groomed as safely as possible. Your animal is very important to TMH, and TMH does not wish to cause any harm or undue stress to your animal. In the event an accident occurs, you will be notified of the accident. If TMH feels it is serious, TMH will seek immediate veterinary care for your animal. Veterinary costs will be the responsibility of the animal's owner.

Veterinarian Authorization-Medical Emergencies: This release gives TMH full authorization to seek medical treatment from authorized veterinarians or nearest veterinarian in the case of any medical emergencies while in the care of TMH. All veterinarian costs and expenses will be the responsibility of the animal's owner.

Current Vaccinations: Animals will be current on all of their vaccinations before a grooming session with TMH. Animals who are not current on vaccinations will be refused grooming services until vaccinations are current. Proof of the rabies vaccinations from your veterinarian will be required before grooming services will be given. Special circumstances will be taken into consideration by TMH.

First Grooming-Puppy Grooming: TMH wants to make sure your animal's first grooming appointment with TMH and your younger animal's first grooming experience is a positive and pleasant one. The first time for grooming of any animal may sometimes be very scary and stressful. Time and patience are the keys to a positive grooming experience. A good first grooming experience for the younger animal leads to a better overall grooming experience for your pet in the future. More time may be necessary to work with the younger animals. Animals are individuals; some animals may become more stressed than others. If your animal becomes stressed over it's first grooming, time and patience, with a little homework on your part should help build your younger animal's confidence, and assure the animal that grooming is a positive experience. On occasion, some animals due to breed, genetics, health concerns, etc. may be stressed by grooming for their entire life, but this is rare. If this should occur, extra care will be taken and only the very basics will be done for grooming of this type of personality. In some cases an animal may never come to accept some or all of the grooming experience.

Senior Animals: Senior animals and animals with serious illness or medical conditions have a greater chance of injury or death during their grooming experience. Every effort will be made to make sure your senior or ill animal's grooming experience is as safe and as comfortable as possible. Extra time may be needed for the ill or senior animal to allow the animal to be as comfortable as possible. Muzzling may also be required during your ill or senior animal's grooming experience, since ill or senior animals have lower tolerance levels. Muzzling is only done when necessary to ensure the safety of both animal and the groomer. TMH has the right to stop/refuse service to Ill or senior animal if it is felt that grooming will cause undue stress or be harmful to the animal. TMH will not be held responsible for the death of any animal during grooming or while in the care of TMH.

Matted Animals: Animals with matted coats need extra attention during their grooming experience. Mats can sometimes be very difficult to remove, requiring them to be shaved out of the coat. TMH does not wish to cause serious or undue stress to your animal. In cases where the coat is severely matted, TMH recommends that portions of the coat, or in some cases, the entire coat be shaved down. The decision is made upon examination of your animal's coat condition at the time of grooming. In some cases this decision may be made during the grooming process if TMH feels it necessary for the pet's health and to maintain as much comfort as possible for your animal's well being during grooming. TMH refuses to do any service which will harm or cause undue stress to your animal. TMH will advise you in the event that it is necessary to shave part or your animal's entire coat due to matting. If you cannot be contacted, TMH will make every effort to take into consideration of your animal's health and level of stress pertaining the condition of the coat. Most severely matted coats will be shaved down to alleviate stress to your animal.

Skin Conditions Under Matted Coats: The skin under a matted coat can become or will be very irritated and sensitive. A severely tangled or matted coat that has not been properly groomed is a dangerous risk to the health of your animal. Under the matted coat your animal's skin is usually red, swollen, cracked, and dangerous to groom. There are higher chances of nicking or cutting the skin during dematting. Clipping a matted coat away from the skin may cause the animal's skin to become very irritated, crack, and bleed. A severely matted or tangled coat does not allow air to get through to the skin causing irritation to the skin in the areas where the matting has occurred.
Irritation can also occur after the matted coat has been shaved away from the skin. Many animals may react to having their matted coats shaved away from the skin by licking, chewing, or scratching these areas. This can cause more irritation as well as problems with skin infections.

Parasites may also be harboring in your animal's coat due to situations where your animal's coat is matted. A topical or oral flea treatment may be required before grooming services are given. Special shampoo may be used to alleviate the problems of parasites. Treatment of your home is suggested to remove parasites from the animal's environment. While bathing and grooming will remove parasites from your animal, they will again become infested with these parasites when they are returned to their home environment if their home environment hasn't been treated to remove the parasites.

**Parasites:** TMH requires flea/tick treatment from April – November to enter the facility. In the event of finding parasites such as, fleas, ticks and lice TMH reserves the right to refuse service to your animal. TMH suggests that you treat your animal with one of the many products that are out on the market. Note: Flea infestations usually lead to your animal acquiring tapeworms-an intestinal parasite. Tapeworms can be transmitted from animals to humans. TMH will notify you if there is a need for veterinary care concerning your animal if TMH does find anything that looks like it may need the assistance from a veterinarian. TMH will also notify you if TMH feels that parasite treatment is necessary.

**Neglect or Abuse:** In the event that severe neglect or abuse is questionable or present, this agreement will authorized TMH to transport the animal in question to a local veterinarian to seek a full medical evaluation of said animal at the owner's expense. TMH has the right to contact the local Animal Protective League, seek full veterinary care for said animal, and file for prosecution under the full extent of the laws of the county/state codes. The animal in question will be placed in protective custody pending evaluations from a local veterinarian. The animal will remain in protective custody pending any hearings, or legal action taken on behalf of TMH or the Animal Protective League or the like. Animals in protective custody will be held until decisions are finalized by TMH, the Animal Protective League, and/or legal judgment ruled. If owner is found guilty of abuse/negligence, the animal will be placed in a responsible, loving home. The owner of said animal in question will be held responsible for all veterinary, boarding/kennel, and legal costs incurred by this process.

**Refusal of Grooming Services:** TMH has the right to refuse any services at any time. In the event that your animal is too stressed or becomes dangerous to groom, TMH has the right to refuse grooming services, stop grooming services, or cancel grooming services at any time before or during the grooming process. Some animals may need the services of a groomer who is working within a veterinarian's clinic/hospital so that the animal may be properly sedated for grooming. **TMH does not groom animals under sedation.**

**Dangerous or Aggressive Animals-Refusal of Services:** TMH has the right to refuse any services at any time. In the event that your animal is too stressed or becomes dangerous to groom, TMH has the right to refuse grooming services, stop grooming services, or cancel grooming services at any time before, during, or after grooming. **Failure to disclose that your animal is a biter, known biter, or is dangerous will result in a fee of $500.** Said animal's owner will be responsible for all payments of any or all of the medical expenses, emergency medical treatments, hospital costs, and recovery costs including physical therapy incurred by TMH or any person employed by TMH for any harm or damage caused by your animal should medical treatment be necessary. Animals who are known biters or are dangerous must be handled differently than those who are not aggressive. Some animals may need the services of a groomer who is working within a veterinarian's clinic/hospital so that the animal may be properly sedated for grooming.

**Animal Bite:** One bite can end a promising career for any professional animal groomer. This release is designed to protect all involved. In the event of TMH or any person employed by TMH being bitten by your animal, you as the animal's owner, caretaker, or responsible party for such animal, will take full responsibility for all payments of any or all of the medical expenses, emergency medical treatments, hospital costs, and recovery costs including physical therapy incurred by TMH and any person employed by TMH should medical treatment be necessary.

**Use of Muzzles:** TMH will advise if muzzling is necessary. Muzzling does not harm your animal and protects both the animal and the groomer. In some cases, muzzling may even calm a stressed animal, allowing the grooming process to continue. If an animal still acts in a way that is dangerous, TMH has the right to stop grooming services at any time.

**Animal Owner or Caretaker Being Present During the Grooming Process:** Due to insurance purposes, TMH requires that no unauthorized individuals be inside the grooming area at the time of grooming services unless requested by TMH to help calm or restrained animal during grooming services. During grooming services at TMH or for in-home services, some animals may become agitated or aggressive during their grooming experience if their owner or caretaker is present. TMH needs to be able to be in control of your animal during its grooming experience. The equipment used during the grooming process is sharp and can cut very easily. TMH has the best interests of your animal's safety in mind. Controlling your animal is the best way of making sure both the animal and groomer do not get hurt. The professional animal groomer must be able to be in control of your animal at all times to ensure the safety of your animal as well as the professional animal groomers safety. In the event that your animal becomes overly excited or stressed while you, the owner or caretaker are present, TMH will ask that you, the owner or caretaker, or any other person or family member present, leave the area where the grooming is taking place. Some animals become too excited while their owners or family members are present. In such cases, accidents are prone to happen when your animal is overly active during the grooming experience. Sharp equipment and moving animals just do not go well together and can lead to accidents happening.

**Interruptions during Grooming Services:** For the safety of the animals being groomed, as well as the professional animal groomer, it is asked that you do not interrupt the professional animal groomer during grooming. Interruptions may cause the animal being groomed to jump or move in a way that can cause an accident. The equipment used during grooming is very sharp and can cut easily. Every effort will be made to ensure the safety of your animal during the grooming process.
